

Analytics & Big Data

Session 11: Integration and exam preparation

Prof. Dr. Gerit Wagner

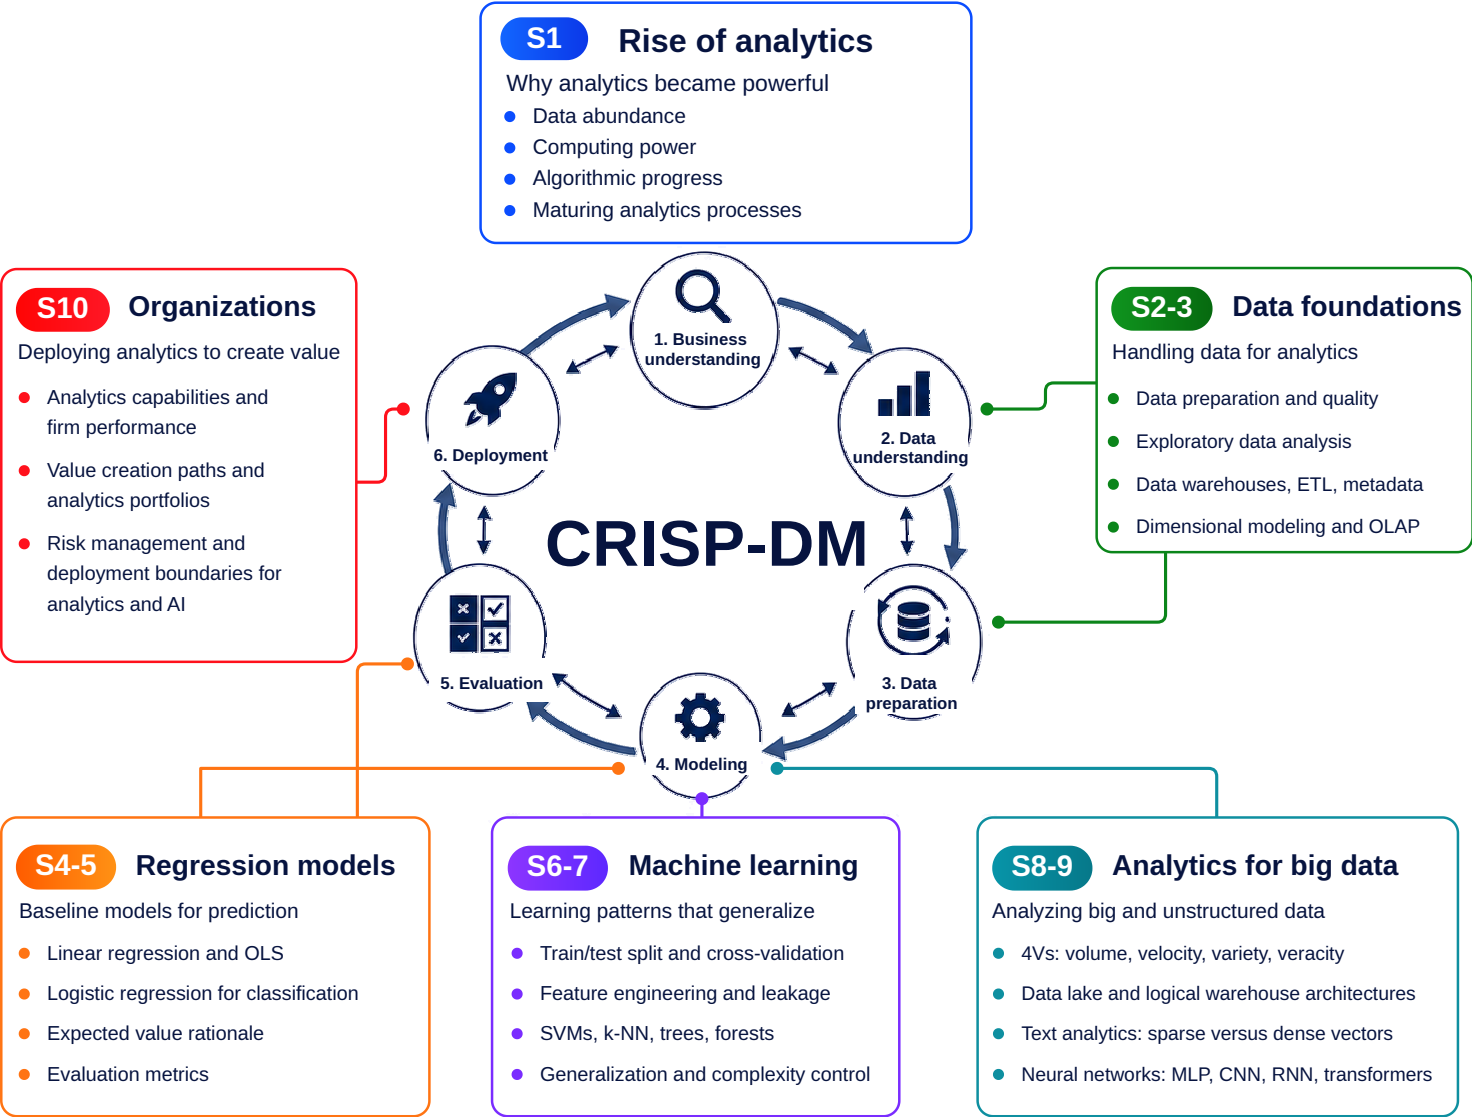

(2026-05-11)

Agenda

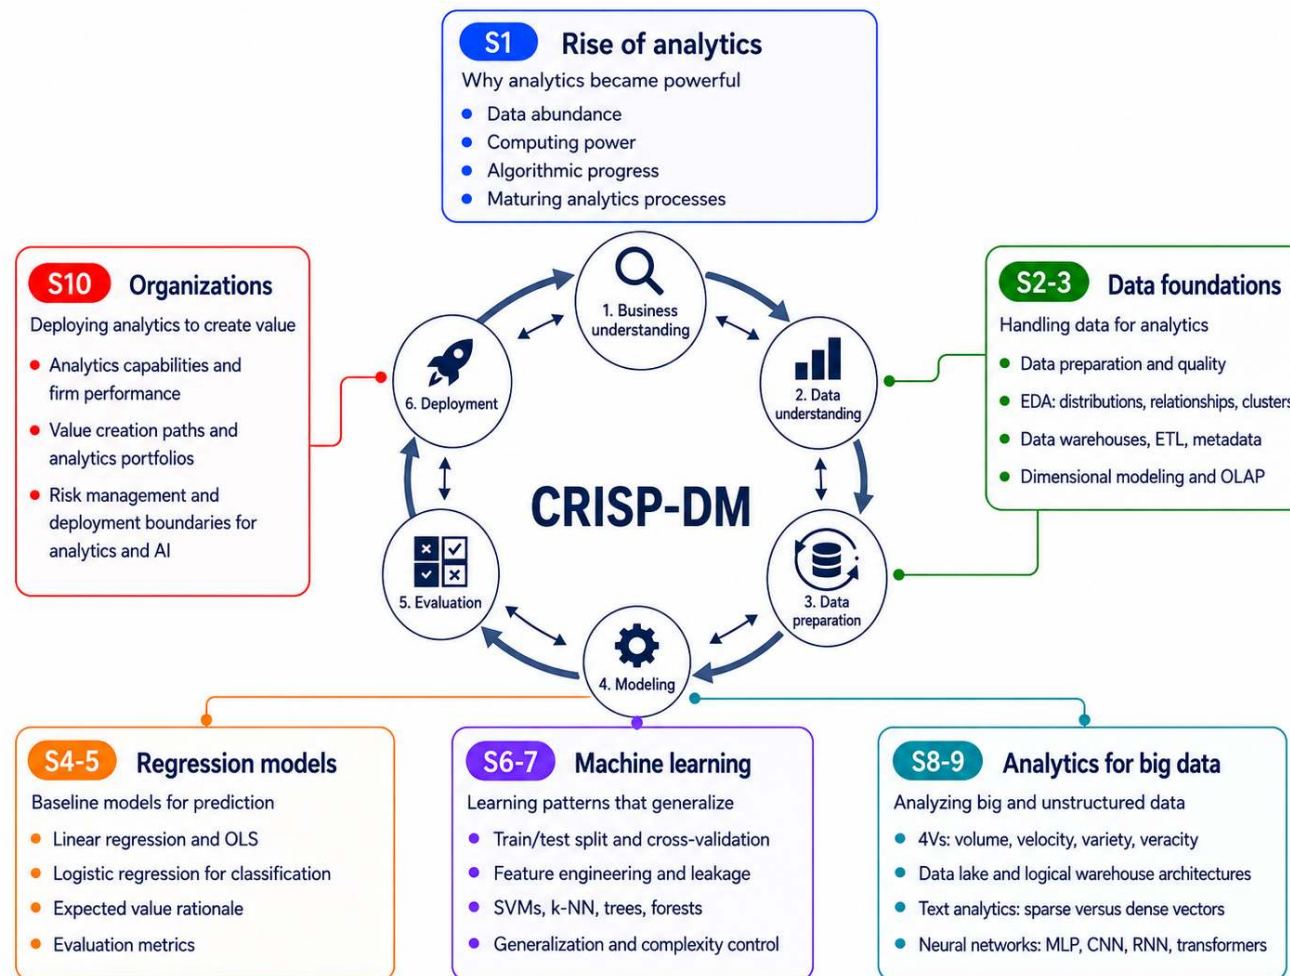

- Synthesis and reflection
- Course evaluations
- Test exam
- Q&A

Synthesis and reflection

Reflection

Based on the overview figure, reflect on the course as a whole:

1. **Where did you learn the most?**
Which part of the course overview represents the largest learning gain for you?
2. **What was most interesting?**
Which topic, method, or application would you like to explore further?
3. **What did you already know?**
Which concepts, tools, or perspectives were familiar to you before the course?
4. **Where do you still feel uncertain?**
Which part of the overview would you find hardest to explain to someone else?
5. **Where do you see the biggest gaps in the contents?**
Which topics should be extended, deepened, or added in a future version of the course?

Course evaluations

Course evaluations

Your feedback helps improve the course, materials, and learning experience.

- Please take **10 minutes** to complete the evaluation.
- Your feedback is **anonymous**. Please be specific, honest, and constructive.

Where to find the evaluation

- In the **email link** you received
- In **Canvas** as a pop-up
- In the Canvas course menu: **Course Evaluation**

Thank you for taking the time to participate!

Test exam

Analytics & Big Data

Test Exam

Name:

Student number:

Additional information:

By starting the exam, you confirm that you are capable of taking it. Withdrawal is not possible once the exam has begun.

By participating, you also confirm that you will complete the exam independently, without outside help and without the use of unauthorized aids. Violations will be treated as breaches of the examination regulations and the Honour Code and may result in serious consequences.

The exam consists of four tasks, all of which must be answered. The maximum total score is 60 points. The allotted time is 60 minutes.

Please use the answer booklet for your responses and complete the required information on the cover sheet before starting. Scratch paper may be used for drafts and notes; however, only answers written in the answer booklet will be graded.

You may complete the tasks in any order. Please ensure that it is clearly indicated which task you are answering.

At the end of the exam, all distributed materials must be returned.

For grading:

Question	1	2	3	4	Total

Q&A

Questions

Anonymous 2320d (2026-05-04, 4:41pm)

- How will the exam be structured? Free text and multiple choice?
- How will the points be distributed?
- Will the exam mainly focus on the key take aways from the slides and the key concepts? Is edge knowledge from the slides required?

Good luck with the exam!

You are well prepared if you can explain the main ideas, connect them across sessions, and apply them to concrete examples.

Before the exam

- Revisit the course overview
- Review key concepts and takeaways
- Practice with the test exam
- Focus on understanding, not memorization

Stay in touch

- Interested in a thesis topic?
